

March Newsletter

Spring is coming and we can't wait!

In Science we are continuing with our Energy Unit. We are finishing up with Kinetic Energy and going to be starting the Electrical Energy segment. We will be exploring with batteries and wires to make circuits.

In Social Studies we will continue learning about the Midwest and how it is such an important region for all of us.

In Math we are learning about fractions. We will learn about equivalent fractions as well as how to add and subtract with like and unlike denominators. Later in the month we will learn division.

Please remember the national park's written report is due March 22. The trifold is due April 5. The presentation will be April 12 at 1:30.
